GAVIN COUCH

Computer Science / Software Engineering

gavincouch@protonmail.com | github.com/GavinCouch
Portfolio: gavincouch.github.io

EDUCATION

Louisiana State University (LSU) Third-year student
Computer Science - Software Engineering

EXPERIENCE

Advanced Repair Agent July 2025 - Present
Geek Squad

PROJECTS

Ordinary Days github.com/GavinCouch/OrdinaryDays
Ren'Py 8.5.3 | Visual novel in development

- Created a character-driven school-life visual novel blending romance, comedy, and psychological horror, with a five-day opening chapter.
- Integrated dialogue choices and character reactions with scenes, sprites, music, ambience, and sound effects.
- Released a Windows x64 Chapter 1 playtest with saves, history, audio and text controls, Reduced Motion, and GitHub bug and story feedback workflows.

Health Easy github.com/GavinCouch/Health-Easy
Swift 6 / SwiftUI | iPhone application

- Built onboarding, daily food logging, saved meals, weight entries, and progress charts in a SwiftUI iPhone app.
- Integrated Firebase Authentication with Apple and Google sign-in, Firestore user data persistence, and Firebase Storage for weight photos.
- Connected HealthKit active energy data and a live recipe API; added photo comparisons with export and sharing.

TECHNICAL SKILLS

Development: Swift, SwiftUI, Swift Charts, Ren'Py
Data and services: Firebase, Firestore, HealthKit, REST APIs, JSON
Tools: Git, GitHub
